:Washington --:Di-strict-of-Columbia. 20530-00001.

:When in the Course of human Events, it becomes necessary for one People to dissolve the Political-bands which have connected them with another, and to assume, among the Powers of the Earth, the separate and equal Station to which the Laws of Nature and of the Nature's God entitles them, a decent Respect to the Opinions of Mankind requires that they should declare the causes [:knowledge] which impel them to the Separation.

**:We hold these Truths to be self-evident, that all Man are created equal-endowed by their Creator with certain unalienable Rights, among them Life, Liberty, and the Pursuit of Happiness. :Governments are instituted among Man deriving their just Powers from the Consent of the Governed- Right of the People to alter or to abolish it, laying its Foundation, to the effect of their Safety and Happiness, Prudence :Invariably with the same-Object evinces the Despotism. The Right and Duty is with the provide-of the new-Guards.'

[Time Card Calculator](#) | [Time Calculator](#)

An hour is most commonly defined as a period of time equal to 60 minutes, where a minute is equal to 60 seconds, and a second has a rigorous scientific definition. There are also 24 hours in a day. Most people read time using either a 12-hour clock or a 24-hour clock.

12-hour clock:

A 12-hour clock uses the numbers 1-12. Depending on the clock being used, most analog clocks or watches may not include an indication of whether the time is in the morning or evening. On digital clocks and watches, "AM" stands for ante meridiem, meaning "before midday," while "PM" stands for post meridiem, or "after noon." By convention, 12 AM denotes midnight, while 12 PM denotes noon. Using the terms "12 midnight" and "12 noon" can remove ambiguity in cases where a person may not be accustomed to conventions.

24-hour clock:

A 24-hour clock typically uses the numbers 0-23, where 00:00 indicates midnight, and a day runs from
